

Dear COOC Members,

The California Olive Oil Council is excited to announce the opening of 2022 Seal Certification!

The COOC Board of Directors would like to thank all of the members for their patience and flexibility over the past year. The California Olive Oil Council staff has been working closely with your Board of Directors to strengthen the COOC through fiscal responsibility, membership engagement, Seal Certification, and promoting the COOC seal and overall quality of California EVOO.

In an effort to maximize efficiency and decrease costs, the COOC will continue to work with The Institute for Food and Agriculture, led by Dr. Susan Pheasant at Fresno State, who will be handling all logistics related to receiving and packaging oil, organizing the sensory panelists, and interpreting sensory panelist data. **Please send ALL documents and oil samples to The Institute for Food and Agriculture-Fresno State, attn. Susan Pheasant, 6014 N. Cedar Fresno, CA 93710 spheasant@csufresno.edu**

Please submit Payment to the California Olive Oil Council, 2565 Alluvial Ave., Suite 152 Clovis, CA 93611

COOC staff will still be the main point of contact for membership renewals, dissemination of sensory results and certificates, and purchasing of seal stickers.

In order to streamline the Seal Certification process, 2022 Seal Certification fees were included in your 2022-2023 membership dues. Submission of two oils was included in membership dues for Producer Tiers 1-6 as well as private label entities. Submission of one oil was included in Micro-Producer membership dues. All producers are welcome to submit additional oils for certification outside of what was included in your dues!

Enclosed in the following pages are all materials related to what is necessary to certify your oils. If you have any questions or concerns, please do not hesitate to reach out to the COOC office.

Thank you for continued support and we look forward to another successful Seal Certification year!

Sincerely,

COOC Board of Directors

The California Olive Oil Council continues to focus on the promotion of California certified extra virgin olive oil. The COOC educates consumers and buyers on the benefits and reasons to purchase 100% California extra virgin olive oil and helps them navigate the market to find oils that carry the COOC Seal of quality. All members are strongly encouraged to use the Seal on their packaging.

The COOC Seal Certification requirements:

- All oils certified by the California Olive Oil Council must be from 100% grown and produced California olives
- All California olive oil labeled extra virgin, must be submitted prior to the deadline of the Seal Certification Program
- Blends from multiple harvest years will not be certified by the COOC
- Harvest date is required on the extra virgin olive oil packaging
- “Best if Used By” date is optional for all members with the exception of producers greater than 5,000 gallons, as required by the Olive Oil Commission of California regulation
- The Generic Seal will be the COOC’s principal symbol for quality California extra virgin olive oil and all members are eligible to use either the Generic Seal or the Harvest Seal (see Attachment A).
- 2022 Harvest Seal will be available for purchase in rolls of 250, 500 or 1,000 stickers. The Generic Seal are available only in rolls of 1,000 stickers.
- The COOC Seal, whether Generic or Harvest, is valid for 24 months post-harvest unless the COOC is provided with technical data as outlined in the Standards, including a sensory evaluation.
- Those who purchase a producer’s oil and label it under their own brand are recognized as “Private Label Entities”.
 - Producer Certification documents (Attachment E) and Private Label Entity documents (Attachment F) are both incorporated into this kit but only the materials in the corresponding checklists should be submitted.

When submitting your oil(s) for certification, please review all materials in the appropriate checklists to ensure that all information has been included.

Submit All Documents and Oil Samples to The Institute for Food and Agriculture-Fresno State, attn. Susan Pheasant, 6014 N. Cedar Fresno, CA 93710 spheasant@csufresno.edu

Submit Payment to the California Olive Oil Council, 2565 Alluvial Ave., Suite 152 Clovis, CA 93611

*****NOTE: In-person drop offs will only be accepted with the scheduling of pre-arranged appointments (all paperwork and materials should be complete prior to your drop off appointment). *****

The Staff and Board of Directors thank you for your continued support!

Program Overview

Purpose of the Program

There are three purposes of the COOC Seal Certification Program.

1. To provide producers and marketers with a standardized method of grading their 100% California olive oil as extra virgin.
2. To provide consumers and retailers with assurance that the oil they purchase is in fact extra virgin.
3. To provide producers and marketers who meet the certification standard with a means of distinguishing their products in the marketplace.

Overview of the Process

To gain certification, a COOC member must complete a chemical analysis and a sensory evaluation of a representative sample of a lot. Once all paperwork has been submitted and an oil has met both the chemical and organoleptic criteria outlined¹, the producer qualifies for use of the COOC Seal of Certification. Mixing of multiple harvest years is not permitted.

Chemical Analysis: You will need to submit your oil(s) to a COOC-approved lab for chemical analysis in order to assess alignment with the standards as defined². A copy of the report is required with the submission of this kit.

Sensory Analysis:

- All representative samples submitted must have an identical lot designation as the chemical report and submission documents.
- *All Producers regardless of Tier Level:* You will submit a sample of your oil to the COOC Sensory Panel for organoleptic evaluation. The Sensory Panel will evaluate your oil to ensure that it is free of defects and meets the criteria to be certified as extra virgin grade. Feedback regarding the oil's positive attributes for marketing and assessment purposes will also be provided. Please note that the sensory evaluation is always done in a blind setting; the Panel will never know the producer's identity.

Procedure

The **submission period** runs from **November 1, 2022 through March 31, 2023**. To achieve certification of your oil, please refer to the checklist on pg. 18/22 for all required documents, paperwork, submission instructions and payment. The Sensory Panel will not evaluate oils until all required items have been received.

Oils submitted after March 31st are subject to late fee charges. No oils will be accepted after April 30th. A certification is valid only for the specific oil submitted for evaluation, unless it is a blend composed entirely of certified lots of the same harvest year. Seal Certification is a mandatory program and all producers must submit their olive oils for certification annually; failure to submit your oils annually will jeopardize membership. No Seal Certifications will be done from May through October. New members who join after May 1st will qualify for the Seal Certification Program for the next harvest.

The Sensory Panel

Established in 1998, the COOC Sensory Panel is a highly trained and knowledgeable group of expert professionals that ascertains if defects as well as desirable attributes of extra virgin olive oils are present during a sensory assessment of the oil. The sensory assessment for the purpose of Seal Certification is conducted in accordance with scientific protocols that do not account for subjectivity³. The assessment's purpose is to evaluate the oil solely on its inherent attributes and characteristics rather than a perception by an individual panel member. The Sensory Panel meets on a frequent schedule for the dual purpose of tasting oils for the Certification Program as well as for continual training and accreditation exams (eight per year).

Results

Oils will be evaluated in the order of completed submission and in a timely manner, based on harvest volume. Per parameters set forth by international standards, the Program is restricted to the number of evaluations completed during organoleptic sessions. After an oil has been evaluated, you will be notified via email by the COOC within three business days. If your oil passes and meets all requirements, you will be eligible to use the Seal for the purpose of marketing and sale. For any oil that is evaluated as not meeting the COOC Standards for the extra virgin grade designation, COOC representatives are available to review the chemical analysis and sensory evaluation with the producer, in an effort to identify ways to overcome documented deficiencies. If

¹ Attachment B: Exhibit A (pg. 13)

² Attachment B: Exhibit A (pg. 13)

³ CDFA Grade and Labeling Standards for Olive Oil, Refined-Olive Oil and Olive-Pomace Oil, Section 9: [Olive Oil Standards \(ca.gov\)](https://www.cdffarmbureau.org/standards/olive-oil-standards)

results do not meet the Standard for extra virgin grading, members may contact the COOC to have the oil reassessed in a secondary evaluation. No more than 30 days may elapse from the time of the notification and the second evaluation.

ELIGIBILITY and RIGHTS OF USAGE

The Certification Program and membership is open to all producers in the California olive oil industry, including producers and those entities with private labels.

Companies participating in the program are authorized and granted the right to display and use, as depicted in Attachment A, the COOC Seal of Certification and the California Fresh Membership Mark (herein after recognized as the “Marks”). Active COOC membership and license, also permits use of the copyrighted content and language of the COOC (herein after “Intellectual Property”) in any and all marketing materials for the olive oil which that entity is directly engaged in selling, and which meets the Certification Program criteria. **These rights are not transferable to any other entity, or to any other product sold by the Licensee. No other entity is authorized or granted the right to use the COOC Marks and Intellectual Property without written approval by the COOC,** executing and returning this application for license, and maintaining full compliance with all COOC Standards and terms of membership. In order to maintain accurate traceability, producers or private label entities must complete and submit paperwork independently of the company that mills their oil(s). Millers are free to physically send oil(s) on behalf of a producer or private label entity to the COOC, but the paperwork should be completed and returned from the producer or private label entity to ensure it is understood the oil(s) is owned by the producer or private label entity and not the miller. Failure to comply with the COOC Standards, terms of membership and rights of usage as expressed in these documents, may result in termination of membership and potential legal action.

Should the producer fail to meet the EVOO standard, they may not use the Marks **nor** market or promote their oil in any way other than as olive oil or the designated grade the oil was assigned.

RIGHTS OF TERMINATION AND CONTROL

As a perishable product, which may over time cease to comply with the Standards, each member agrees to take all reasonable steps to cease the sale and distribution of non-conforming oils. Such steps could include but, are not limited to, removal of the Intellectual Property, including the Marks, as used in connection with the sale and marketing of the non-conforming vessels and advising any third party selling or marketing the vessel of the non-compliance and to recall the product from the shelf until appropriate labels conform to the standards.

All active COOC members agree that olive oil currently certified within the Program, which fail to meet the Standards for certification, pulled via random sampling, or for any reason, will immediately forfeit their rights of usage of the Marks and all other Intellectual Property. In the event of such forfeiture, the member will be required to remove the COOC Marks and other Intellectual Property from those products, materials, and other marketing or related promotional material within 30 days. The member acknowledges that in the event of such forfeiture, its product will no longer be listed by the COOC as certified.

Similarly, those companies that choose to terminate participation in the Program via non-renewal, non-payment, non-compliance or direct cancellation must remove and cease all use of the Marks and all other Intellectual Property owned and used by the COOC, and delete such use from all past, current and future marketing materials, including but, not limited to websites, packaging, labels, and literature, immediately upon termination.

The COOC at its sole discretion and subject to approval by its Board of Directors, reserves the absolute and sole right to amend and change the Standards in Attachment B. Any and all revisions to the Standards will be based on relevant, factual information, and will be adopted purposefully for the commitment of maintaining or improving the overall integrity and quality of the Seal Certification Program.

INTELLECTUAL PROPERTY OWNED BY THE COOC

All members of the COOC, whether active or not, acknowledge that the COOC owns all rights, interest and title in and to the Intellectual Property set forth in Attachment A, and which may be updated at the discretion of the COOC. Specifically, all members acknowledge that the COOC is the owner of all rights, title and interest in and to the Seal of Certification, the California Fresh Membership Mark, and owns the copyright in all written materials or other expressions produced by the COOC or for its benefit. It is acknowledged that the goodwill developed in the Intellectual Property owned by the COOC is for the exclusive benefit of the COOC, and that other than the limited rights of use specifically granted herein, no member has any other right or claim to the Intellectual Property, or right or claim to enforce the Intellectual Property owned by the COOC, without the explicit written authorization of the COOC.

All members of the COOC, whether active or not, shall not contest the validity of the Seal of Certification, the California Fresh Membership Mark, or any other Intellectual Property owned by the COOC, nor make any claim that is averse to the COOC's right, title and interest in and to its Intellectual Property.

It is imperative that members of the COOC agree to cooperate and not to in any way interfere with the COOC's efforts to secure protection of its Intellectual Property in the State of California, in any other state or country, nor take any action which would compromise the COOC's ownership and rights to any of its Intellectual Property, and as a condition of membership, each member waives any right thereto, even if membership is terminated. It is acknowledged that the COOC has the exclusive and sole right to file applications for registration of its Intellectual Property in any and all jurisdictions and to enforce any and all rights to its Intellectual Property, including the Marks. Nothing within these documents grant the member or licensee the right to use any of the Intellectual Property, including any variation or colorable imitation of the Marks, in connection with any domain name owned by a member and/or licensee.

It is acknowledged that it is the purpose of the COOC to certify that the California olive oils made, blended, sold, marketed or distributed by others comply with the COOC Standards, and to license its Intellectual Property, including the Marks for the purpose of promoting the benefits of fresh extra virgin olive oil and advertising that such certification has taken place. It is also acknowledged that the COOC serves as a trade membership organization that is engaged, on behalf of its members, to promote the virtues and benefits of fresh California extra virgin olive oils and educate the public about the benefits of such products.

It is further acknowledged, that by signing the COOC Certification Mark and Intellectual Property License Agreement (herein after recognized as Certification License Agreement) the member desires, as a producer of olive oil, to make, blend, sell, market or distribute California olive oil which complies with the COOC Standards and receive a license to use the Intellectual Property, including the Marks, on the terms and conditions contained within these documents.

Subject to the terms and conditions as set forth herein and in consideration of the applicant's ("Licensee") active membership and other good and valuable consideration, the COOC grants to the Licensee, a non-exclusive and non-transferable license to use the Intellectual Property, including the Marks, owned by the COOC for the exclusive purpose of the use the License specified herein. Licensee shall make no other use of the Intellectual Property other than the use for which the application has been made.

Company: _____

Certification. Licensee has submitted to the COOC, samples of an olive oil having the characteristics set forth in the Olive Oil Submission/Register Form ("Submission Form") attached hereto as Attachment E/F for the purpose of evaluation by the COOC in accordance with the Standards set forth in Attachment B. Provided the olive oil meets the Standards in Attachment B, the COOC agrees to certify that, as of the date hereof, the olive oil described in the Submission Application as complying with the Standards. Such olive oil shall be referred to hereafter as the "Approved Olive Oil".

1. **License.** Subject to such approval and certification, the COOC hereby grants to Licensee an exclusive license to use the Marks on vessels containing the Approved Olive Oil, and the Intellectual Property with the promotional and marketing materials developed by Licensee in connection therewith, and for no other purpose, and Licensee hereby accepts such grant subject to the terms and conditions hereof.
2. **Representations and Covenants of Licensee.** Licensee hereby represents and covenants that:
 - a) The Submission Application and all other information provided by Licensee to The COOC concerning the Approved Olive Oil are true and correct;
 - b) The samples of olive oil submitted by Licensee are true and unadulterated samples of the olive oil that Licensee intends to sell, market or distribute;
 - c) Licensee shall use the Mark only on vessels containing the Approved Olive Oil and promotional and marketing materials developed by Licensee in connection therewith;
 - d) In the event that the Approved Olive Oil represents a single lot⁴ of olive oil, Licensee shall use the Mark only on vessels containing such lot of olive oil, and shall apply for new certification for any other new and distinct lots of olive oil;
 - e) Licensee is a member in good standing of the California Olive Oil Council, Inc. and has read, understands, and agrees to comply with the California Olive Oil Council Label and Promotional Material Disclosure Requirements in Exhibit B;
 - f) Licensee shall take **all** reasonable measures to ensure that the Mark will not be associated with any other products sold, marketed or distributed by Licensee and not covered by a similar license agreement with the COOC; and,
 - i) The use of the Mark on any product, separate from or blended with the Approved Olive Oil, is excluded. Neither the Mark nor the term extra virgin may be associated with a flavored or mixed oil blend(s), other than listed as an ingredient.
 - g) Licensee shall submit copies of all labels on which the Mark is intended for use in accordance with Attachment A and all stipulated requirements herein.
 - h) Licensee shall inform the COOC immediately of any material change to any of the foregoing.
3. **Quality Control.** Licensee acknowledges that the COOC may take all reasonable steps to ensure that the Marks are only used on vessels containing the Approved Olive Oil and that the Approved Olive Oil continues to comply with the Standards.
 - a) Licensee hereby agrees to provide the COOC or its authorized representatives records that are relevant to the production, bottling or storage of the products sold, marketed or distributed by Licensee, which bear the Marks for the purpose of inspection of quality. Licensee further agrees to provide samples to the COOC within 30 days, upon the COOC's request, of all products sold, marketed or distributed by Licensee bearing the Marks and all promotional and marketing materials developed by Licensee in connection therewith, and/or which depict the Intellectual Property. In the case which a supplier or co-packer is used, Licensee agrees and authorizes the supplier or co-packer to supply records and samples as requested.
 - b) Licensee acknowledges that the Approved Olive Oil is a perishable product, which may over time cease to comply with the Standards, and Licensee therefore agrees to take all reasonable steps to ensure that its vessels bearing the Marks are not sold or marketed by Licensee if the contents no longer comply with the Standards. Such reasonable steps include but shall not be limited to, advising any third party selling or marketing the vessel that the contents no longer comply with the Standards required by the Marks and facilitating its removal from marketplace and/or distribution.
4. **Fees.** The COOC agrees to make self-adhesive stickers bearing the Seal of Certification Mark available for purchase by

⁴ Attachment C: Lot Size Recommendations and Requirements (pg. 16)

COOC Certification Mark and Intellectual Property License Agreement

Licensee. The fees are set forth in the fee schedule in Attachment A

- a) Licensee agrees to abide by said Fee and shall affix the stickers bearing the Marks to and use only on vessels containing the Approved Olive Oil for the specific harvest year. Licensee agrees to abide by said Fee for the embedding of the Mark onto the label of the Licensee's vessel.

5. Term and Termination.

- a) Term. Unless sooner terminated in accordance with Section 6, the term of the License shall be for a period of time for the Licensee to sell, market, and distribute all vessels containing the Approved Olive Oil bearing the Mark but, in no case will the License Agreement and the right to use the Intellectual Property be more than twenty four months from the harvest of the Approved Olive Oil⁵. Should the Membership Agreement become inactive or deactivated by the COOC, the use of the Intellectual Property will be considered terminated.
- b) Termination. If Licensee shall fail to perform any obligation, covenant, undertaking, term or condition of membership of this License, and fails to cure such default within thirty (30) days from the date of written notice of such failure of performance, sent by email or registered mail to Licensee by the COOC, or if Licensee ceases for any reason to be a member in good standing of the California Olive Oil Council, then the COOC shall be entitled to terminate this License immediately without further notice and shall be entitled to all remedies set forth in section 7 and all other remedies available at law and equity.
- c) Effect of Termination. Upon termination of this License Agreement, Licensee shall immediately discontinue all use of the COOC Intellectual Property, including the Marks, and any colorable imitations thereof. Any use of the COOC Intellectual Property, including the Marks, shall be deemed acknowledged an infringement and act of unfair competition in violation of all applicable federal and state laws, and also at common law.

6. Liquidated Damages and Remedies. Licensee hereby acknowledges that the Intellectual Property of the COOC, including the Marks, is extremely valuable to the COOC, and that any material breach of this License by Licensee (whether intentional or not) may result in substantial harm to the COOC, which may be difficult to measure and not adequately be compensated by monetary damages. Therefore, in the event of the termination of this License pursuant to section 6, the COOC may:

- a) require Licensee to recall from distribution all vessels bearing the Marks, which do not contain Approved Olive Oil and Licensee agrees to do so immediately upon written request (by email or post) by the COOC.
- b) require Licensee to pay the COOC the greater of the sum of ten thousand dollars (\$10,000) or the sum of one dollar (\$1.00) per vessel which does not contain Approved Olive Oil but which bear the Marks, and Licensee agrees to make such payment within 30 days of written notice (by email or post) by the COOC.
- c) disseminate a press release describing the circumstances of the termination, material breach or recall including public dissemination by any medium including direct mailing by retailers. Such press release may include but is not limited to the following language:

“The COOC announced today that (Name of Approved Olive Oil), certified on (Date) and bearing the COOC Marks, no longer meets the requirements for the Seal of Certification and/or the California Fresh Membership Mark, and that the certification and license to use the COOC Intellectual Property has been withdrawn. Further, the Licensee has agreed to recall from distribution or remove the COOC Seal of Certification and/or the California Fresh Membership Mark, as well as all COOC Intellectual Property used in connection therewith, from all vessels certified on (Same Date). This announcement does not apply to (Name of Approved Olive Oil(s)) certified on other dates.”

- d) Licensee agrees that the above remedies are reasonable and may be imposed either individually or cumulatively, as may lesser remedies, at the sole discretion of the COOC. Licensee acknowledges that failure of the COOC in any instance or instances to impose a remedy upon Licensee or others shall not be deemed a waiver of the enforceability of any provisions in this License Agreement, or terms of membership.

7. Indemnification. Licensee agrees that it will not during the term of this License, or at any time thereafter, object or otherwise challenge, in any way, the title or any rights of the COOC in and to the Intellectual Property, including the Marks, or challenge the validity of this License. Licensee shall indemnify, defend and hold the COOC harmless from and

⁵ Attachment B: Standards & Requirements – Exhibit C: (pg. 13)

Attachments of Reference 2022-2023

against any and all claims, judgments, liabilities, losses, damages, penalties, fines, or costs (including, but not limited to, reasonable attorney's fees), which arise from, or are related to, Licensee's use of the Intellectual Property. This indemnity shall survive the expiration and termination of this License.

8. Successors. Licensee may not sell, assign, transfer, mortgage, sublicense, or otherwise part with any of its rights or obligations under this License, to any person or entity, without the prior written consent of the COOC, which consent may be withheld at the COOC's sole discretion. Subject to the foregoing limitation, the provisions of this License shall inure to the benefit of, and shall be binding upon, the heirs, successors, executors, administrators and assigns of the parties hereto.
9. Notice. Any notice, demand, request, consent or other communication which either party desires or is required to give to any other party shall be in writing and shall be deemed to have been given when either: (a) delivered in person, email or by facsimile transfer, or (b) sent by overnight courier or first-class registered or certified mail, postage pre-paid, return receipt requested, addressed to such party at the address set forth following Licensee's signature to this Agreement. Either party may designate another address for itself at any time upon written notice to the other party.
10. Improper Use by Third Parties. Licensee will immediately provide to the COOC the name and address of any entity, whether it be a Licensee or non-Licensee, that engages in the mislabeling of olive oils with the improper or unauthorized use of the Marks or any other Intellectual Property owned by the COOC, whenever and wherever Licensee reasonably believes that such activity is being carried on.
11. Binding Arbitration. The parties shall in good faith work toward the resolution of any disputes or issues arising under this License Agreement. If the parties fail to reach a final resolution with respect to any such disputes or issues, the parties shall submit such disputes or issues to binding arbitration. Such disputes or issues shall be arbitrated pursuant to the provisions of Sections 1280-1294.2 of the California Code of Civil Procedure to be held in San Francisco County, before a retired judge of the California state or federal courts. Judgment on the Arbitrator's decision or award shall be final and binding and may be entered in any competent court. This paragraph confirms the mutual intent of all parties to waive jury trial. The parties may hereafter agree to other arbitration rules, such as the commercial arbitration rules of the American Arbitration Association, but any such agreement must be in writing. The arbitrator's decision shall be binding on the parties.
12. Expense of Arbitration. If any arbitration is commenced to enforce any provision of this License Agreement, then the prevailing party shall be entitled to be reimbursed by the unsuccessful party for all fees, expenses and costs incurred in connection with such arbitration, including a reasonable allowance for attorneys' fees and costs and expert witnesses' fees and costs, which amount shall be added to and become part of the final decision in such matter.
13. Governing Law. This License shall be governed by, and construed in accordance with, the law of the State of California.
14. Authority. Signatory below warrants and represents to having the authority to sign on behalf of and bind the named entity on whose behalf this Agreement is signed.
15. Entire Agreement. No representations, promises, understandings or agreements exist other than as set forth herein. This License Agreement is the standard agreement for all members and may not be amended as to any applicant under any circumstance.

IN WITNESS WHEREOF, the Licensee has executed this License Agreement effective this _____ day of _____, 20____.

ATTACHMENT A

COOC Intellectual Property Subject to License

California Fresh Membership Mark

Seal of Certification Marks

***There can be no deviation or alteration of the Marks.**

Any manipulation of Intellectual Property or file types of the Marks for use on Licensee labels or marketing collateral is a violation to Certification Mark and Intellectual Property License Agreement (CLA)*

The COOC is unwavering in the promotion of California certified extra virgin olive oil. Members who apply to use the Generic Seal will be required to provide copies of packaging that legibly displays the harvest month and year. Members may alternatively use the Harvest Seal which includes the harvest year. The COOC will have a limited supply of the Harvest Seal in sticker format and once the reserve is depleted, requesting members will have to conform to the Generic Seal requirements or use the digital artwork of the Harvest Seal.

The Seal is available in the following formats:

- Rolls of stickers
 - Harvest Seal
 - Rolls of 250 stickers - \$25.00/roll
 - Rolls of 500 stickers - \$50.00/roll
 - Rolls of 1,000 stickers - \$80.00/roll
 - Generic Seal
 - Rolls of 1,000 stickers - \$80.00/roll
 - A shipping and handling fee will be applied at a per order rate of \$15.00/order
 - Seal stickers are available in the green and yellow color scheme **only**.

- Artwork
 - File types: .ai, .jpg, .pdf, .png
 - This can be incorporated directly into your label. Seal artwork fee structure is outlined in the table below
 - Seal artwork is available in four color schemes:

Table 2: COOC Marks Color Scheme

	Green & Yellow Seal	Green & White Seal	Black & White Seal	Grey Scale Seal
PMS	Green: 343 Yellow: 127	Green: 343 Black: 0	Black: 100% White: (Black) 0%	Black: 100% Grey: (Black) 15%

There can be no deviation from the four-color options displayed above

AUTHORIZATION AGREEMENT FOR USE OF THE SEAL

ATTACHMENT A

** Fee structure for sticker costs is listed above

Please indicate if you are a producer or a private label entity:

☐ Producer

☐ Private Label Entity

Please indicate if you will use the Generic or Harvest Seal

☐ Generic Seal

☐ Harvest Seal

Will you be applying for the digital artwork or Seal stickers?

☐ Digital artwork

☐ Seal stickers

If you selected to use the digital artwork, what color scheme will you use?⁶

☐ Green & Yellow

☐ Green & White

☐ Black & White

☐ Grey Scale

Note, the sticker only comes in the Green & Yellow color scheme

The use of the Generic Seal is permissible if **ALL** of the following conditions are met:

- 1) The licensee has provided a final copy of their label(s) with clear indication of the harvest date containing month and year in a consumer-friendly format (i.e. November 2022 or 11/2022). Due to readability issues and fading, laser etching must be pre-approved by the COOC to ensure clarity. **Please initial** _____
- 2) The licensee acknowledges that they must apply for use of the Generic Seal annually, in line with the Seal Certification Program. **Please initial** _____
- 3) The user agrees to withdraw products should at any time the oil(s) not pass the criteria for extra virgin certification⁷.
 - The product(s) must be withdrawn within 30 days of COOC written notification. The member will notify the COOC in writing that all products have been recalled in total.
- 4) The COOC Seal, whether Generic or Harvest, is valid for twenty-four months post-harvest
 - Technical support used to determine a “Best if Used By” date may be provided indicating a shelf life greater than twenty-four months.
- 5) If purchasing Generic Seal stickers, the licensee will only be able to purchase rolls of 1,000 stickers, as these will be applicable for use on future harvest oils given the member remains in compliance of membership and complete the annual requirements outlined in the active Seal Certification Program.

ATTACHMENT B

Standards and Requirements

As a condition of membership, **all members** who produce a California olive oil labeled as extra virgin must submit their oils annually and prior to the deadline of the Seal Certification Program and agree to abide by all requirements set forth in the Certification Mark and Intellectual Property License Agreement. Failure to submit oils by the deadline will result in non-compliance of membership. Private Label Entities must complete all required documentation by the deadline in order to remain in good standing. The requirements are provided each year prior to the harvest as noted in Exhibit A below.

EXHIBIT A: California Extra Virgin Olive Oil Standards for Certification

- 1) 100% of the oil is from olives grown in the State of California in the United States of America, extracted from the fruit solely by mechanical means under conditions that do not lead to the deterioration of the oil.
- 2) The oil has acidity (oleic free fatty acid) and meets all standard¹⁰ requirements outlined in Table 1¹¹
 - COOC standards may change prior to November 1st of each year, in advance of the certification program to comply with state and/or federal requirements. Members will receive a 30-day notice of any changes.
- 3) The oil must be organoleptically evaluated by the California Olive Oil Council Sensory Panel or approved panel¹² and found to have a median fruitiness greater than zero and be free of defects.

Table 1: COOC Standards & Requirements for Certification		
All Producers		
Sensory	Median of Defects	0
	Median of Fruity	> 0
Free Acidity (FFA) (%m/m)		≤ 0.5
Peroxide Value (PV) (meq O ₂ /kg oil)		≤ 15
UV Absorbency (UV)	K232	≤ 2.4
	K270	≤ 0.22
	Delta K	≤ 0.01
Producers > 5,000 gallons		
Moisture and Volatiles (MOI) (%m/m)		≤ 0.2
Insoluble Impurities (INI) (%m/m)		≤ 0.1
DAGs (%)		≥ 35
PPP (%)		≤ 17

Should state or federal requirements change after November 1st, these requirements may supersede the COOC

EXHIBIT B: Label & Promotional Material Disclosure Requirements

The following apply both to labels as well as to promotional materials of all kinds.

Labeling practice for **all** products sold and marketed by COOC members should uphold the mission of the California Olive Oil Council to provide the utmost transparency when referring to extra virgin olive oil. Any language that may be perceived as misleading to consumers with respect to olive oil may be considered a violation of the COOC Code of Ethics.

1. All oils certified by the California Olive Oil Council must be from 100% grown and produced California olives
2. If use of “California” is made in any phrase such as company name, brand name, or other word or group of words, or images that identify California on the label of any extra virgin olive oil sold by the member, then 100% of the fruit to produce the oil must come solely from the state of California.
3. Provenance: (i) If reference is made to a specific region within California, then at least 85% of the oil must be from olives grown in that region. (ii) If reference is made to a specific estate within California, then at least 95% of the oil must be from olives grown on that estate. (iii) If any phrase such as a company name, brand name, or other word or group of words except for address or legal information, is in conflict with (1), (2i) and/or (2ii), then the actual location or locations in which the olives were grown must be specified on the Primary Display Panel, in type not less than 1/3 the size of the phrase, and in geographic specificity no less precise than the phrase; if the oil is from a less-specific region than the phrase implies, then there must be a disclaimer indicating that the oil is not from the implied location, in type not less than 1/3 the size of the phrase.
4. Varietal Names: If an oil is named under the same nomenclature of the olive varietal used, then the oil must comprise of at least 85% of the fruit (by weight) denoted.
5. Time of Harvest: 100% of the olives used to make the oil must have been harvested during the period referred. Because the bulk of the harvest typically takes place October to December, the COOC seal certification year refers to the harvest year; for example, the 2022-2023 harvest season is deemed the 2022 certification year. (i) It is not permitted for product consisting of Approved Olive Oils from numerous harvests to bear the COOC Seal of Certification.
6. Awards: Any reference to an award, prize, certification, or citation must apply to 100% of the oil and clearly state so. Awards must refer to current awards only, not previous years.
7. Cultivation Methods: No reference to cultivation standards or practices (such as organic or sustainable) may be made that is not applicable to at least 85% of the fruit (by weight) used to produce the oil and the reference must comply with state and federal definitions and regulations.
8. Production Methods: No reference to extraction methods may be made that is not applicable to at least 85% of the fruit (by weight) used to produce the oil.
9. Descriptors: (i) Ambiguous or misleading descriptor words or phrases regarding region, state or provenance are prohibited. (ii) Use of promotional vocabulary that makes reference to production from a specific region, state or provenance that does not represent 100% of the production process including but not limited to, growing, milling, and bottling, coming from that specific region, state or provenance is prohibited.
10. Should the member be marketing and/or selling olive oil(s) that do not abide by extra virgin standards, the COOC may not be referenced, nor shall the product be marketed or sold as being extra virgin⁸.
11. Members marketing and selling olive oils must submit all labels for approval by the COOC prior to distribution into the market. (i) Flavored oil labels and mixed oil blends⁹, though excluded from the Seal Certification Program, will be reviewed for compliance and should only make reference to the phrase extra virgin in the Ingredient List¹⁰. Labeling practices should coincide with the FDA Food Labeling Guide. (ii) if the 2022 Harvest labels are not finalized, a current draft may be reviewed with intended changes noted.

⁸ Attachment D: Recommendations and Requirements for Other Oils and Products Containing Extra Virgin Olive Oil (pg. 17)

⁹ Attachment D: Recommendations and Requirements for Other Oils and Products Containing Extra Virgin Olive Oil (pg. 17)

¹⁰ FDA Food Labeling Guide, Pg. 17: <https://www.fda.gov/media/81606/download>

EXHIBIT C: Harvest & ‘Best If Used By’ Dates

- 1) The COOC requires the use of harvest date either in the form of the COOC Harvest Seal (of which harvest year is embedded) or if using the Generic Seal, harvest month and year must be clearly indicated on packaging¹¹.
- 2) ‘Best If Used By’ dates are not a requirement of the COOC; however, if such is indicated, the date denoted must not exceed 24 months post-harvest.
- 3) See the COOC’s “[Determining Best if Used By Date](#)” document

EXHIBIT D: Trademark and Artwork

- 1) The California Olive Oil Council holds registered ownership of The California Olive Oil Council Certification Marks. Upon completion of the Certification Mark and Intellectual Property License Agreement, permission to use the COOC Certification Mark¹² on packaging and for use of marketing, in accordance with, and subject to, the provisions of the Agreement.
- 2) Use of COOC Marks should not portray adaptations in color (See Table 2), proportion, nor be edited to any dimensions smaller than 7/8” in diameter.
 - Variance in size smaller than 7/8” in diameter is subject for review and approval by the COOC upon submission of a retail ready label
- 3) The Marks should not be altered in any way other than noted above, unless written permissions have been provided by the COOC.

Table 2: COOC Marks Color Scheme				
	Green & Yellow Seal	Green & White Seal	Black & White Seal	Grey Scale Seal
PMS	Green: 343 Yellow: 127	Green: 343 Black: 0	Black: 100% White: (Black) 0%	Black: 100% Grey: (Black)15%

EXHIBIT E: Filtering, Racking and Storage

- 1) In order to preserve the highest quality of your olive oil(s), The COOC encourages that producers remove sediment and water from their oil by means of processes such as filtration and/or racking. Excess sediment is amongst the most common contributing factors for oils not meeting extra virgin grade due to anaerobic fermentation and oxidation, which may also result in a short shelf life. Removal of water and sediment are imperative to the longevity of an olive oil and prevent compromising the oil’s shelf life¹³.
- 2) Storage of fruit (during harvest and prior to milling) and oil should be in cool, dark spaces, away from light, air and heat, otherwise one risks the increased chance of oxidation. Storage of unracked and/or unfiltered oil over extended periods can also contribute to degradation that shortens an oil’s shelf life. Storage vessels should be faultlessly clean prior to use and meet food grade requirements. The COOC encourages that members refrain from the use of plastic drums or bags, for these practices are vulnerable to leeching, seepage and breakage.

ATTACHMENT C

Lot Size Recommendations and Requirements

For the purpose of this License Agreement, a “lot” is a homogenous batch of oil, contained in one or more vessels and is of uniform composition throughout. In determining submissions to the COOC Seal Certification Program, utilize the following guidelines on distinguishing lots. **In no case may a lot be larger than 200,000 gallons. This is a requirement.**

- Uniform characteristics could include but, not limited to:
 - Containers - drums, tank, tote
 - Varietal - Arbequina, Picual, Coratina
 - Date of harvest (within the same harvest year)
 - Grove location - Carmel Valley grove and San Benito County grove
 - Milling operation

Example of benefits to utilizing lots

- 1) COOC feedback assists in determining characteristics for blending purposes.
 - a. 3 Varietals - 3 Lots: A producer has for sale, a blend of three varieties; however, wants to ascertain both the individual characteristics of the three varieties they produce and ensure each variety passes the standard for extra virgin grade before blending. Therefore, the member submits each variety as a single lot and will receive 3 individual reports, one for each varietal but, will only sell one final blended product.
- 2) Allows for flexibility when selling bulk oil.
 - a. 5 Varietals - 7 Lots: A producer with five different varieties on one grove and two of the five on a second grove intends on blending the like varieties with a percentage being for bulk sales. Seven submissions are made to the COOC prior to blending. By doing so, the producer can later sell any of the five varieties as a Seal certified lot adding value to their olive oil. It also allows greater flexibility to the producer with either blending the lots or maintaining a single varietal product. Any custom blends produced from the individually certified varieties will in turn qualify for use of the COOC Seal.
- 3) Potential problems are isolated.
 - a. 2 Grove Locations - 2 Lots: A producer has a field blend of varieties from groves in 2 different locations. The grower suspects fruit fly damage in one of the groves. The oil is submitted as 2 lots, one sample from each location. Should the oil from one location not qualify as extra virgin, it will be isolated and not adversely affect the oil from the other grove.
- 4) Large quantities of oil are assessed separately to provide for greater traceability.
 - a. 900,000 Gallons - 7 Lots: A large producer mills almost one million gallons from three varieties. 900,000 gallons of the oil is from a single varietal. To ensure that no single lot exceeds the maximum of 200,000 gallons, the producer will submit this varietal as 5 lots. Additionally, they will submit one lot each of the 2 other small quantity varieties. Alternatively, the producer could segregate by containers.

The most important factor to remember when dividing into lots is that the **lots must be uniform**. All lots must be coded. Please note that producers who make more than 5,000 gallons must comply with FDA and Olive Oil Commission of California regulations. Noted below is the 21 CFR Part 101 Food Labeling section 101.9.

A collection of primary containers or units of the same size, type, and style produced under conditions as nearly uniform as possible, designated by a common container code or marking, or in the absence of any common container code or marking, a day's production, constitutes a "lot."

Information from <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/cfrsearch.cfm?fr=101.9>

ATTACHMENT D

Recommendations and Requirements for Other Oils and Products Containing Extra Virgin Olive Oil

The California Olive Oil Council is committed to the promotion of the highest grade of olive oil in the industry. By ensuring that an oil exceeds specific chemical and organoleptic parameters, the COOC is able to certify that a producer used best practices with the handling and storage of the olives and oil from tree to bottle.

In order to preserve the integrity of the COOC Mark, members must abide by the following when promoting other oils:

Olio Nuovo: is an oil released to consumers and retailers immediately after milling. It is an oil that has not been filtered or racked and is fresh from the mill. With the presence of excess sediment, this oil has a life expectancy of 90-120 days and therefore may not bear the Certification Marks.

Flavored Oils: may never be marked or sold as extra virgin olive oil. Standards¹⁵ preclude this descriptor, for once anything is added to an extra virgin olive oil it is considered either flavored olive oil or a flavored oil. Additionally, neither the COOC Seal nor reference to the Seal may be used.

In the case that an Approved Olive Oil is infused with a flavor, the verbiage of extra virgin olive oil may only appear as an ingredient and indicate as such with a truthful percentage of the composition with proportional text.

Co-milled olive oils or oil produced from the mutual pressing of olives and fresh fruit other than olives are excluded from the parameters for extra virgin certification without being viable for organoleptic evaluation. Labels and promotion of may not reference extra virgin olive oil as an ingredient.

Mixed Oil Blends: For the purpose of this program, **blend(s/ed)** will refer to the combining of oils solely comprised from olives. **Mixed** blend(s) will refer to the combining of oils composed from multiple fruit origins.

If you mix your extra virgin olive oil with another oil, you must label and promote it as such. The label must clearly state the contents and proportions with promotions so that neither the consumer nor retailer is misled. The COOC Seal may never be used on mixed oil blends, even if they contain an Approved Olive Oil.

Examples of mixed oil blends:

- If a product displays the nomenclature reflecting the result of a mix of 75% nut oil and 25% extra virgin olive oil then, the font must be proportionate to the percentages. The nut oil should reflect font size 75% of the text and the extra virgin olive oil 25% of the text. The label also lists under the ingredients that the vessel contains 75% nut oil and 25% extra virgin olive oil.
- A producer blends 50% extra virgin olive oil with 50% of a seed oil, the font can be of equal size and the contents of the mix must be clearly stated under the ingredients as 50-50.

☐ Submissions are made in UV-Protected glass bottles, food service metal, or protective coated exterior packaging will be utilized of non-UV-protected glass bottle and will be housed in a box of suitable non-exposed vessel. Oils will not be assessed if received otherwise. **Please Initial:** _____

☐ I hereby authorize the COOC to evaluate the oil(s) for conformity with the Marks, including the blind assessment of the oil by the COOC Sensory Panel

☐ I acknowledge that once submissions are made to the COOC, an alternative assessment may not be used to supersede the COOC Sensory Panel's results. If results do not meet the Standard for extra virgin grading, members may contact the COOC to have the oil reassessed of which the COOC will conduct a secondary evaluation.

☐ I am a producer of >5,000 gallons annually, in Tier 4-6 and I agree to utilize the COOC sensory panel first to obtain the COOC seal. I agree to only utilize an outside approved panel, if my oil is not assessed as Extra Virgin by the COOC sensory panel, in order to stay in compliance with Olive Oil Commission of California rules and regulations. I agree that oils that are not assessed as Extra Virgin by the COOC sensory panel, are not to display to the COOC seal. If you would like a retaste by the COOC sensory panel, and additional charge will not be incurred.

☐ Except for the grant of permission to use the Marks, the results will be kept confidential by the COOC. I explicitly agree that these results are binding on me and the COOC, and further explicitly release and discharge and hold harmless the COOC and any individuals or entities associated with either the COOC or the Sensory Panel from any claims, liabilities, obligations or any damages, whether real or imagined, resulting from their actions or inactions with respect to evaluation.

☐ Licensee authorizes the COOC to utilize sample information and data for statistical collection of which may benefit the development of the industry. No individual sample or data will be identified and would only be used for aggregate statistics of which results and/or summary is shared with membership. **Please Initial:** _____

☐ I acknowledge that I have read and understood the Certification Mark and Intellectual Property License Agreement, including the California Olive Oil Council Standards¹⁷ covering Exhibit B in reference to Label and Promotional Materials Disclosure Requirements, and that I may only label or promote my oil as COOC Certified if I have executed the Agreement.

I am authorized to agree to the above representations on behalf of Licensee, sign on behalf of Licensee, and bind Licensee to all terms herein. I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.
